

COLLABORATING NATURALLY ON THE

# Schuylkill scrub

For years, conscientious groups in beautiful Southeastern Pennsylvania have charged into spring to diligently clean up a little piece of paradise. Now, thanks to the Green Valleys Association and the collaborative efforts of many individuals and organizations, an improved united effort is being launched as the **Schuylkill Scrub**.

- **More effective** with planned activity to positively affect the Schuylkill Watershed!
- **More visible** featuring collaborative promotions before and during the Schuylkill Scrub!
- **More accountability** with an organized effort designating specific areas to specific groups!

The Schuylkill Scrub will register existing and new waterway cleanup efforts from the headwaters of the Schuylkill River down to the confluence of the Delaware River in Philadelphia. We expect that the cumulative amount of trash removed through this campaign will be very impressive and of immediate benefit to the entire Schuylkill River watershed!

## Participating Organizations:

- Green Valleys Association
- Hay Creek Watershed Association
- Partnership of the Delaware Estuary
- Schuylkill River National & State Heritage Center
- Trout Unlimited, Valley Forge Chapter
- Philadelphia Cares
- Bartram Gardens
- North Coventry EAC
- Phoenixville Green Team
